

BLACKHAWK!

November 1, 2013

Dear Valued Customer:

BLACKHAWK! has received a small number of reports of the pistol grip breaking on SpecOps Gen II stocks. Our investigation and testing reveals that this can occur if the user does not seat the butt of the stock solidly in his/her shoulder while using 3½-inch shells. To avoid this situation, and prevent possible injury, observe these precautions:

- Seat the stock firmly against your shoulder pocket. Allow the stock to absorb the recoil, not the pistol grip.
- Do not use with 3½" shells.
- Grip the forend firmly with your off hand.

This notice applies to the following part numbers:

K07100-C: REMINGTON 870 SERIES 12 GA BLACK
(ONLY APPLIES TO THE REM 870 SUPER MAGNUM)
